REQUISITIONS FOR ADMISSION.

Candidates for admission into the Freshman Class are examined in the following or equivalent studies :

English Grammar, Geography, Arithmetic, Algebra (through four chapters Davies' Bourdon), Bullion's Latin Grammar, Andrew's Latin Exercises, Cæsar (four books), Virgil (six books), Cicero's Orations, Bullion's Greek Grammar and Lessons, Bullion's Greek Reader, Latin Prosody and Mythology.

Candidates for a higher standing are examined in the same studies, and also in that part of the Course gone over by the class to which they may desire admission.

All students must bring satisfactory testimonials of good moral character, and those from other Colleges, certificates of dismission in good standing.

Thorough acquaintance with the studies required for admission, is indispensably necessary in order to receive the full benefit of the subsequent College course. It is found by experience that students imperfectly prepared for the class they enter, are embarassed in their further progress and seldom repair the want of proper preparatory study.

The members of the Senior Class deliver orations before the Faculty and students throughout the year. Greek and Latin Composition

will be attended to during the first three years of the Classical Course. Dictation, Declamation and Composition in the French and Spanish Languages will be attended to throughout the whole Scientific Course. Chemistry is taught by recitation and lecture, accompanied with experiments. Regular lectures will be delivered by the President and Professors, upon subjects connected with their several departments. It is believed that the alternation of familiar Lecture, with the ordinay Recitation, is highly calculated to elicit the attention and insure the success of the student.

PRACTICAL INSTRUCTION.

Knowledge without application is unproductive. One great object of the Instructor should be to make the scholar practical as well as theoretical. Much is left for the teacher to supply which is not found in the text books. There is much valuable information which can only be obtained by oral instruction, by experiment and practice. With this view, all Recitation and Lecture will be rather practical than theoretical, and the Theodolite, Compass, Sextant, Telescope, etc., will be employed by the Professor in actual observations, and surveys, thus properly enforcing and illustrating Mathematical and Philosophical principles by application.

The course of study in the various departments, is thought to be full and thorough. The object of Collegiate instruction is not to complete either a practical or professional education; but to lay the foundation of a character fitted to appear with honor and usefulness in any sphere of life—to bring out and properly balance the powers of the mind, thus fitting the individual for the successful prosecution of the learned professions or higher departments of business.

LIBRARY.

The College Library contains about 3000 well selected volumes, of both ancient and modern literature. The importance of such a library to the reading student, during his Collegiate Course, is too obvious to need remark. The library is accessible to all students.

APPARATUS AND CABINET.

The College possesses a valuable set of Philosophical, Astronomical, and Chemical Apparatus, and also a well selected Mineralogical and Geological Cabinet. The apparatus includes a new Reflecting Tele-

scope (focal distance, 7 feet), a Theodolite, Sextant, Compass, Chronometer, Atwood's Machine, Whirling Tables, Electrical Machine, Air Pump, Steam Engine, various combinations of the Mechanical Powers, Batteries, Chemical Tests, etc., sufficient for a thorough and extended course of observations and experiments.

LITERARY SOCIETIES.

There are two regular Literary Societies connected with the Institution. These are of great utility to young men acquiring a liberal education—improving them in the art of public speaking, making them in some degree familiar with the proceedings of deliberative bodies, and in cultivating systematic business habits. Each society has a convenient Hall and a well selected Library—about 1600 volumes each.

There is also connected with the Institution a Society, the object of which is to aid its members in the acquisition of the French language. The exercises of this, the Lafayette Society, are conducted exclusively in French, and they have, we believe, proved eminently successful in the promotion of the object for which the Society was established.

REPORTS.

Bi-monthly Reports are transmitted to the parent or guardian of each student, showing his scholarship and general deportment.

PREPARATORY DEPARTMENT.

In this Department regular hours of *Study* and *Recitation* are observed under the *immediate* supervision of the Principal. In other respects the members of this Department are subject to the same general regimen and requisitions as the College student.

EXTRACTS FROM THE STATUTES.

CHAPTER VI—*Religious Exercises*—The exercises of every day shall be opened and closed with prayer by the President or some other member of the Faculty, when all the students shall attend.

2. The students shall attend Divine Worship in the College Chapel or elsewhere every Sabbath.

3. The due observance of the Sabbath is earnestly recommended, and all practices inconsistent with the reverence due to the day are expressly prohibited.

CHAPTER XII—*Of Commencements, Sessions, Examinations and Vacations.*—There shall be an Annual Examination, commencing on the second Monday preceding the last Wednesday in July, which shall be Commencement Day.

2. The regular Academic year shall begin on the first Monday in October of every year.

3. There shall be a vacation from the 24th of December to the 1st January, and from Commencement Day to the first Monday of October in each year.

CHAPTER XIII—*Of Expenditures*—Every student whose parent or guardian does not reside in Jackson, or immediate vicinity, shall have an academical guardian, nominated by himself, with the consent of his parent or legal guardian, whose duty it shall be to take charge of the expenditures of such student, and with whom shall be deposited such a sum of money as his parent or guardian may think proper. In the article of pocket money, the strictest economy is most earnestly recommended and requested.

N. B.—The requirements of Chapter XIII above, will be strictly enforced.

GENERAL INFORMATION.

This College was taken under the patronage of the M. E. Church, South, in 1845, and has been constantly growing in importance and usefulness. It is located in the village of Jackson, about twelve miles from Bayou Sara, in a grove of pine, magnolia, oak and beech. The location is remarkable for its beautiful woodlands, its bland and delightful atmosphere, its pure water, and its unrivalled healthfulness.

The government is mild and parental, but consistent and firm; if a student is found to be incorrigibly vicious or idle, he is at once dismissed. The punishments consist of demerit marks, private reproof, public reproof, and suspension. The rewards consist of merit marks, and public honors on the day of Commencement. So that by every incentive—by appeals to all the nobler principles of the nature—by affectionate entreaty and friendly counsel—by the hope of distinction and the fear of disgrace—the Faculty endeavor to maintain order and the purest morality.
